# Cure the Skin

A Few Drops Give

Through the Skin For that awful, awful itch on body, face, arms or hands don't pour

dangerous drugs into your stomach, but doctor the itch where the itch is. Cure the skin through the skin with that wonderful prescription D. D., the external cure for eczema, psoriasis, itch and all forms of skin affections.

A few drops on the burning, itching and scaly skin—and the dreadful itch is stopped—the terrible burning ceases, soon the nauseating scales fall off. Then after a short, continued use the red disfiguring splotches which have given you so much agony disappear, the skin becomes soft and white, and in a little while you would not know where the sore had been.

# Prescription

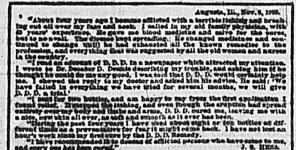

is a liquid—not a sticky, nasty paste.

Inetant Rellet

D. D. Prescription permeates the skin and it kills the Eczema germs. Science has demonstrated that Eczema is not a blood disease, but a skin disease only. It is caused by millions upon millions of little germs which infest the skin. If you could but look at that sore through a 800 diameter microscope, imagine how the eczematous, skin would look t

The only way to kill the germs is to apply a treatment directly to the germs that will kill them. D. D. D. was prepared for this very purpose by Dr. Decatur D. Dennis, who was the first physician to discover that Ecsema was caused by gorms which lodged in the skin and which cannot be dislodged until something is applied to them which will kill them, yet at the same time so mild a remedy that it cannot injure the surrounding bealthy skin.

Why will you allow the terrible disease to linger longer when you know that you can care it and care it forever with D. D. P. We made a thorough investigation into the curative power of D. D. Debefore we just it upon our shelves. Come late our store and let us show you handreds of postimonials, annualists, which we us truthful and us proveded us the case

given here. We will not urge you to buy-we simply want to show you that your Rosema can be made to disappear as if by magic.

Since the discovery by Dr. Dennis hundreds of doctors have published articles on Eczema as a germ disease. Dr. Wm. Hutchingon Merrill, an eminent physician, says in the New York Medical Journal: "Seborrheic Eczema is caused by a epscific germ or germs, in form diplococci, whose life history to most active at ordinary temperatures and with-free access of air, but which can develop at much higher of lower temperatures with early a country of cuygon."

All Falled—D.D.D. Cured THE PROOF IS ON EVERY MAND

The discoveries by Dr. Dennis have been version a thousand times, and hundreds of physicians are turning daily to D. D. D. Prescription which they prescribe for their patients. We allow physicians to do this whenever they choose, out we always want the patient to know that he is being cured by D. D. D.
